

Assignment-1

Name : Anuska Nath

Roll: 002311001003

Dept: Information Technology

Year : UG - 3

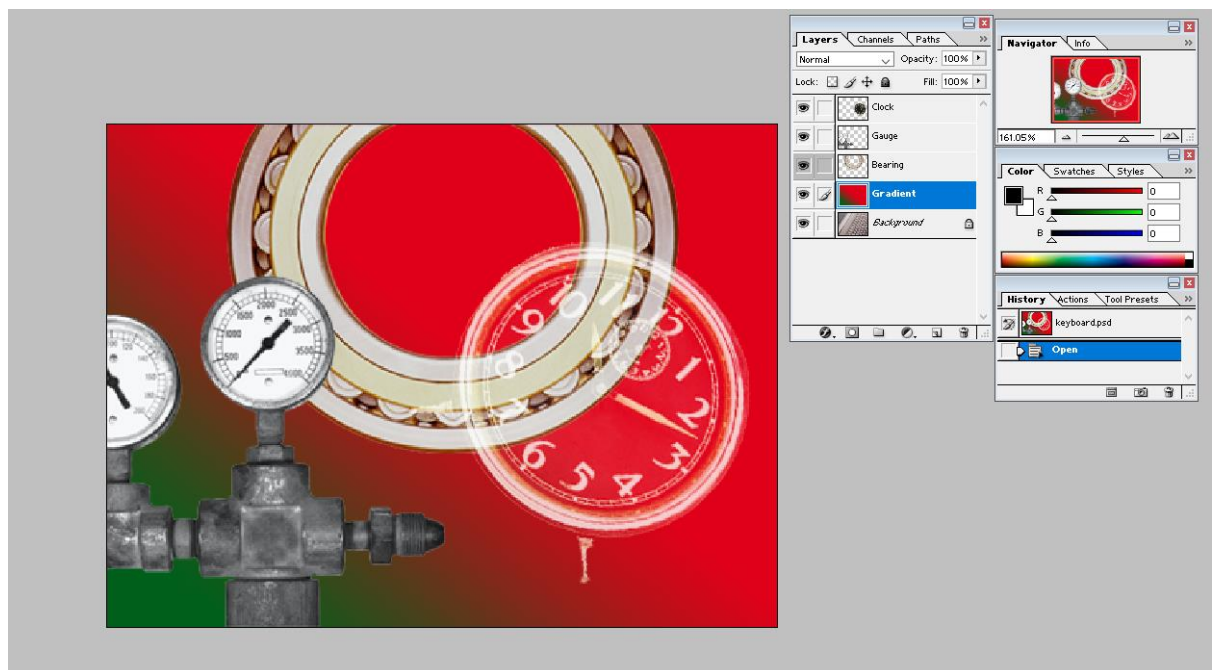

(Done together with Anish Das [002311001009])

EXERCISE – 1 : WORKING WITH LAYERS

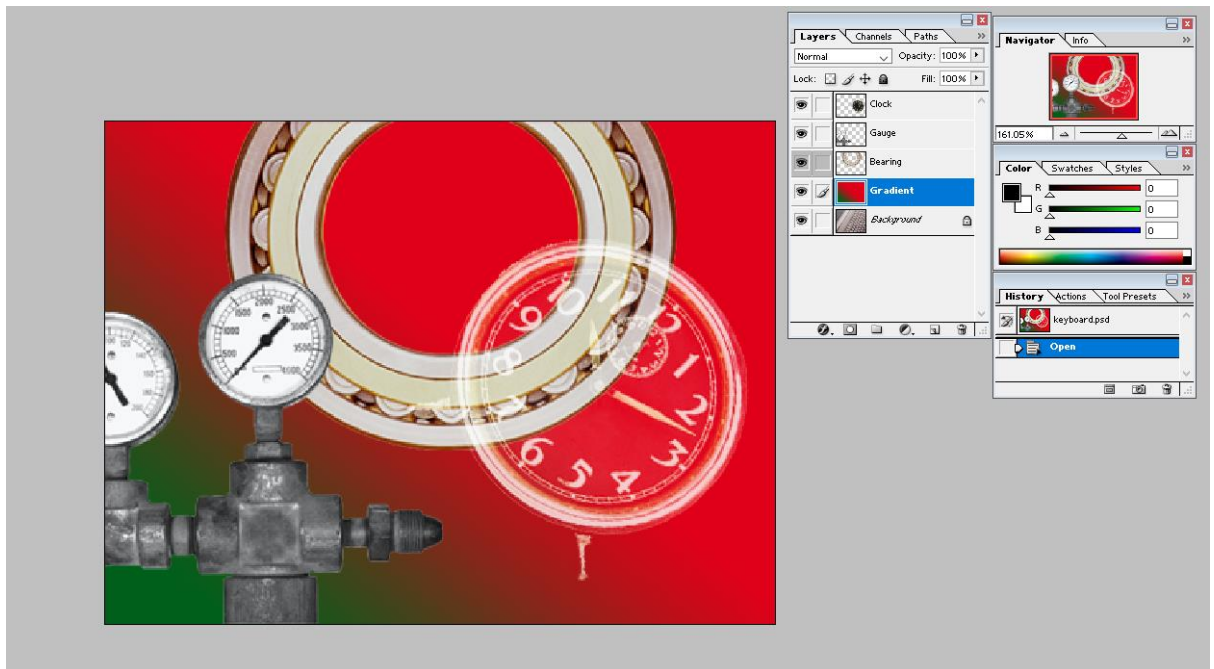

Steps :

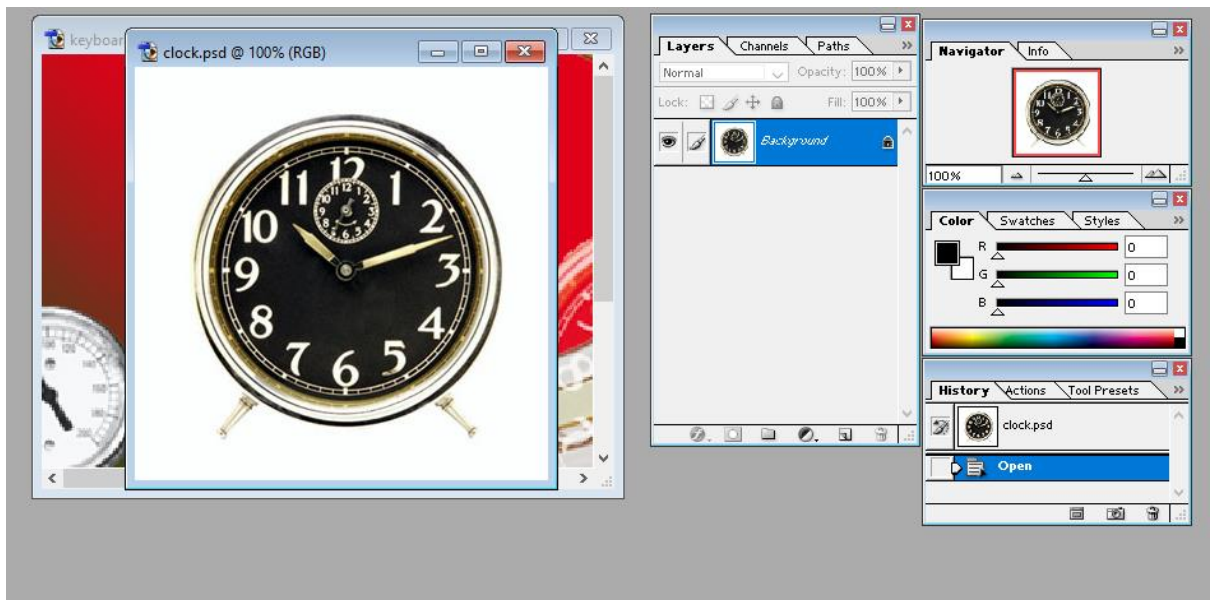

1. **Open :** file Open the file KEYBOARD.PSD file in Photoshop

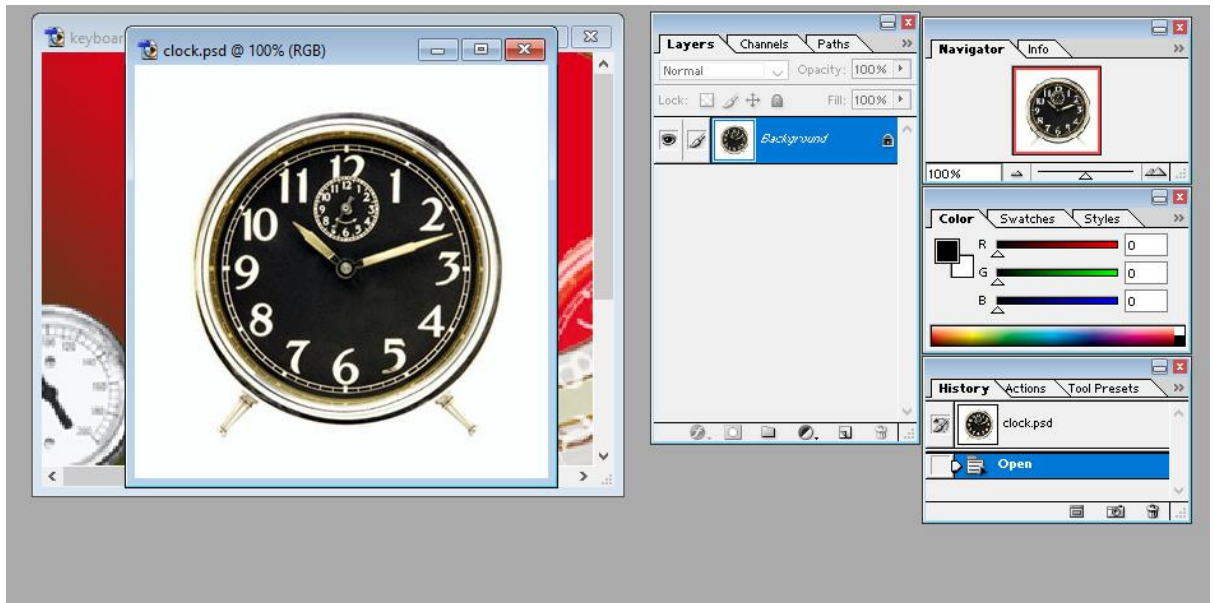

2. **Make layer visible** : Make the bearing and gauge layers visible by clicking to the left of the layer icons
They are already visible.

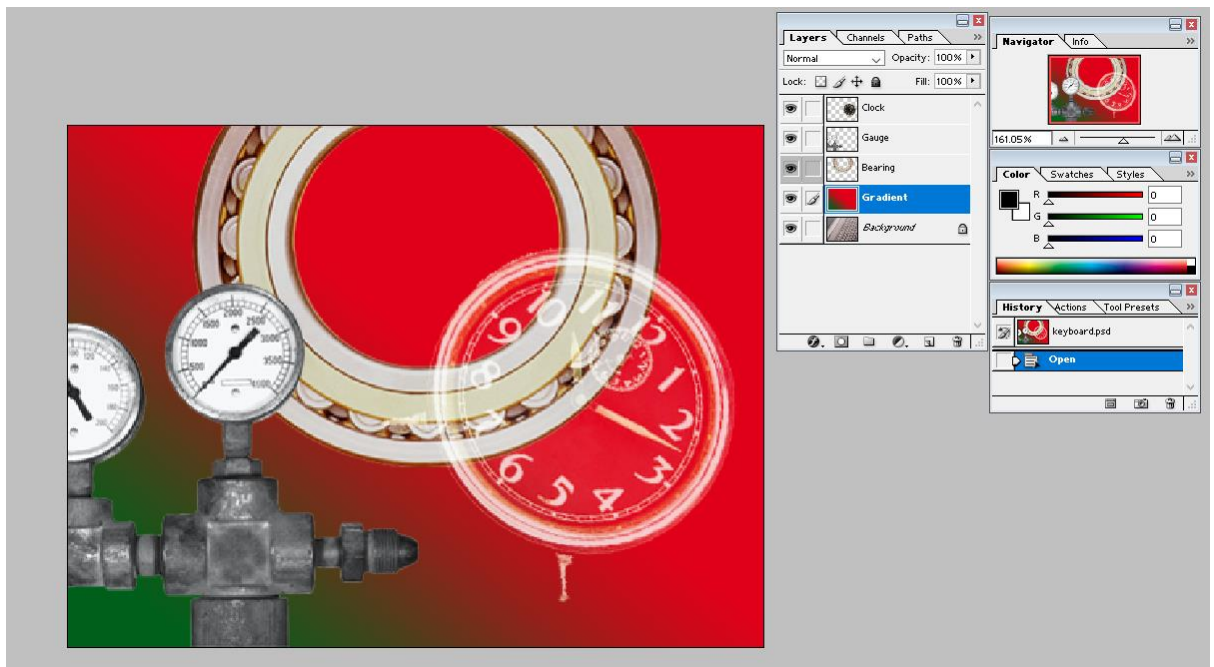

3. **Open file** : Open the CLOCK.PSD file in Photoshop

4. **Move** : Use the Move tool to drag the clock image and place on top of the keyboard image.

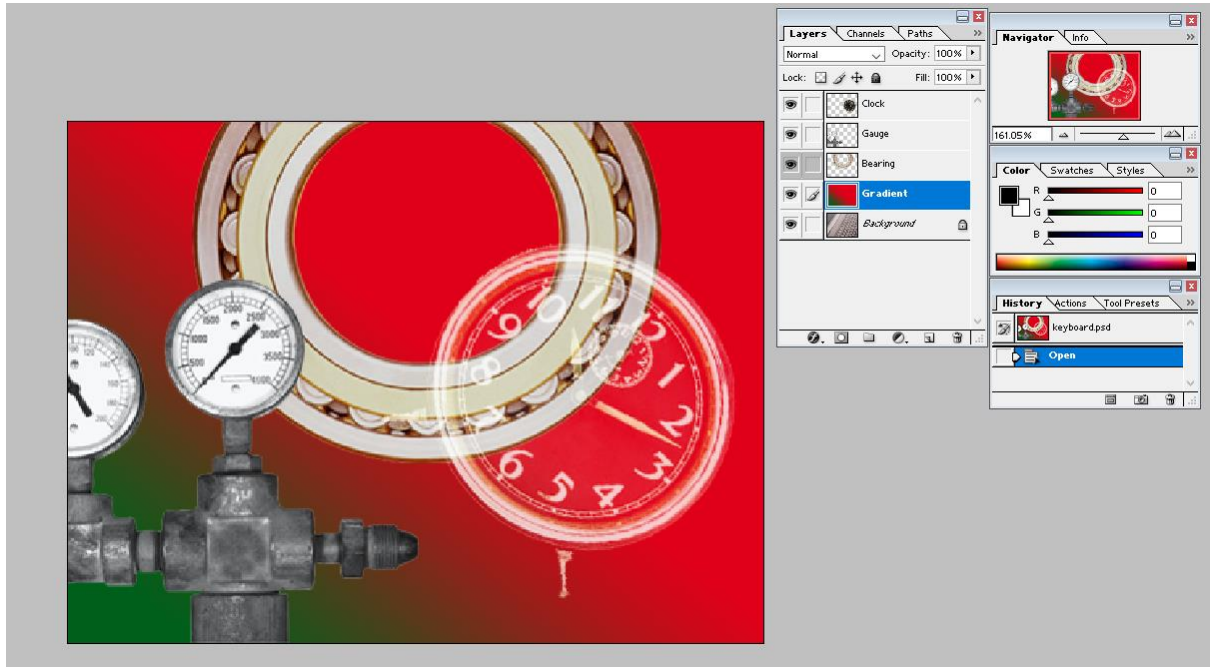

5. **Close file** : Close the CLOCK.PSD file.

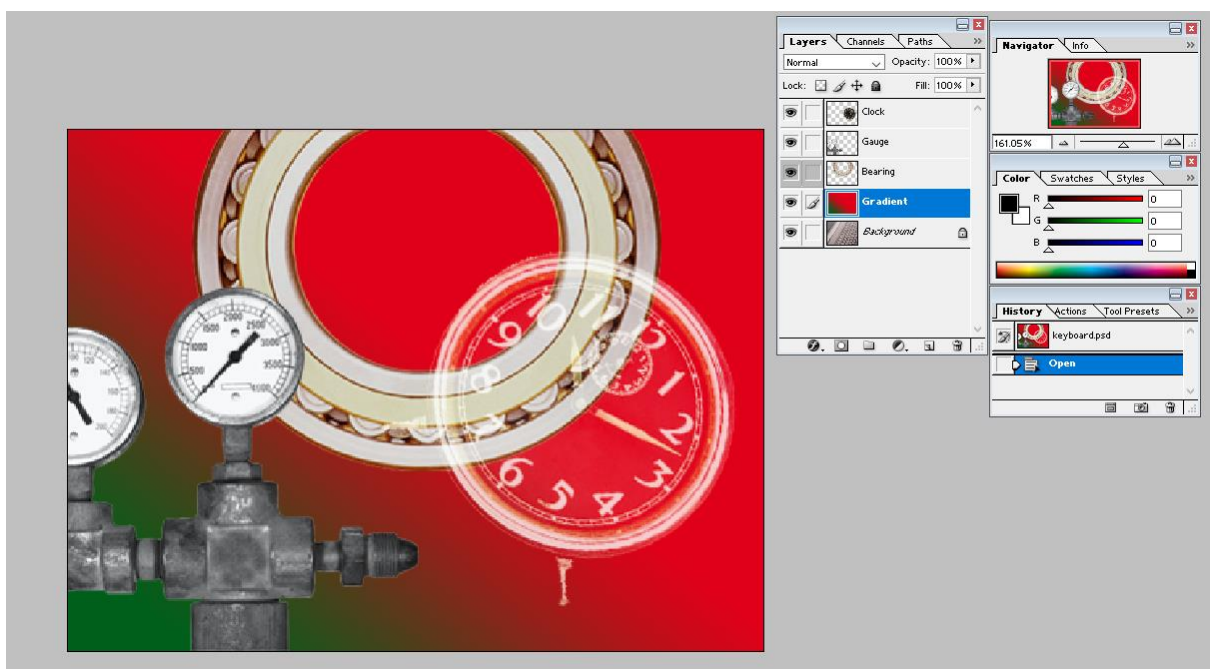

6. **Rename layer** : Right-click on the new Layer-1 and from Layer Properties rename the layer to Clock.

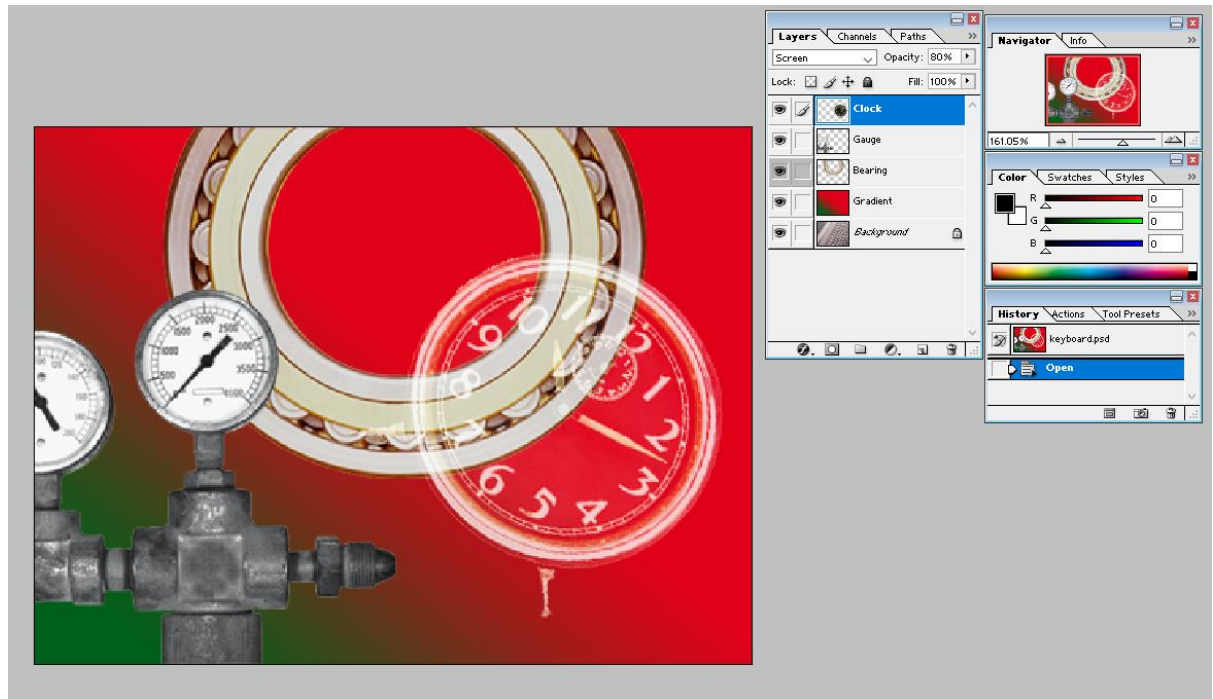

Already named clock.

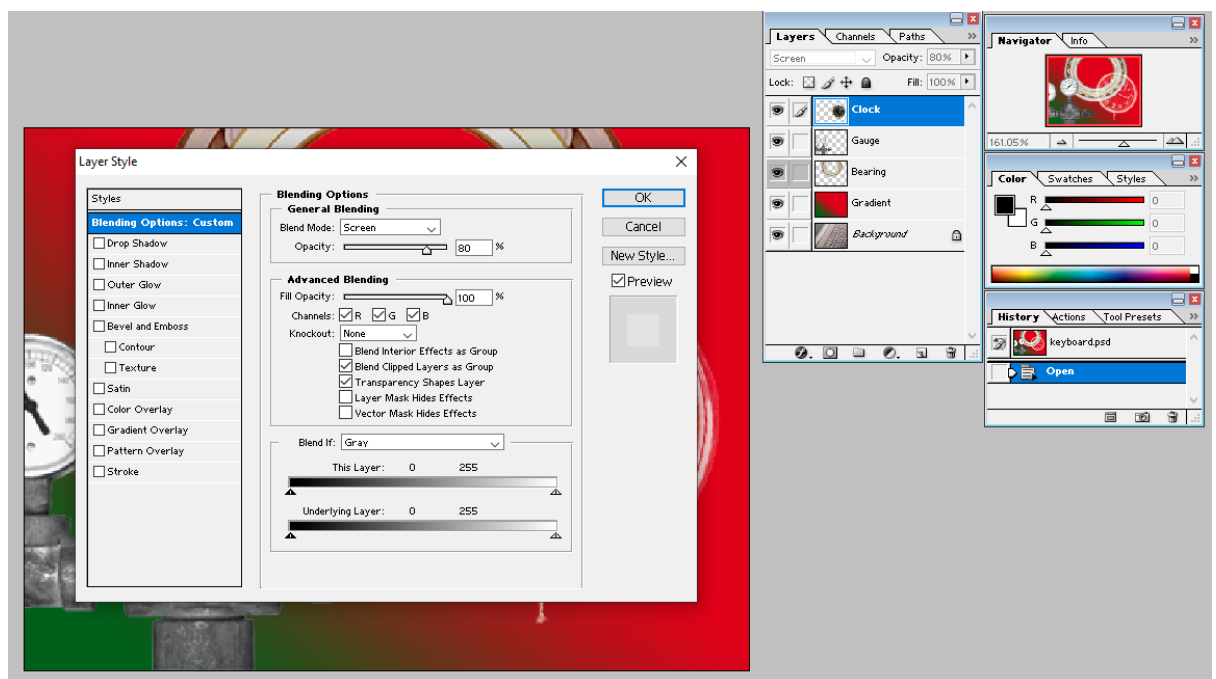

7. **Reorder layer** : In the Layers palette drag the Clock layer to the top
Already on top.

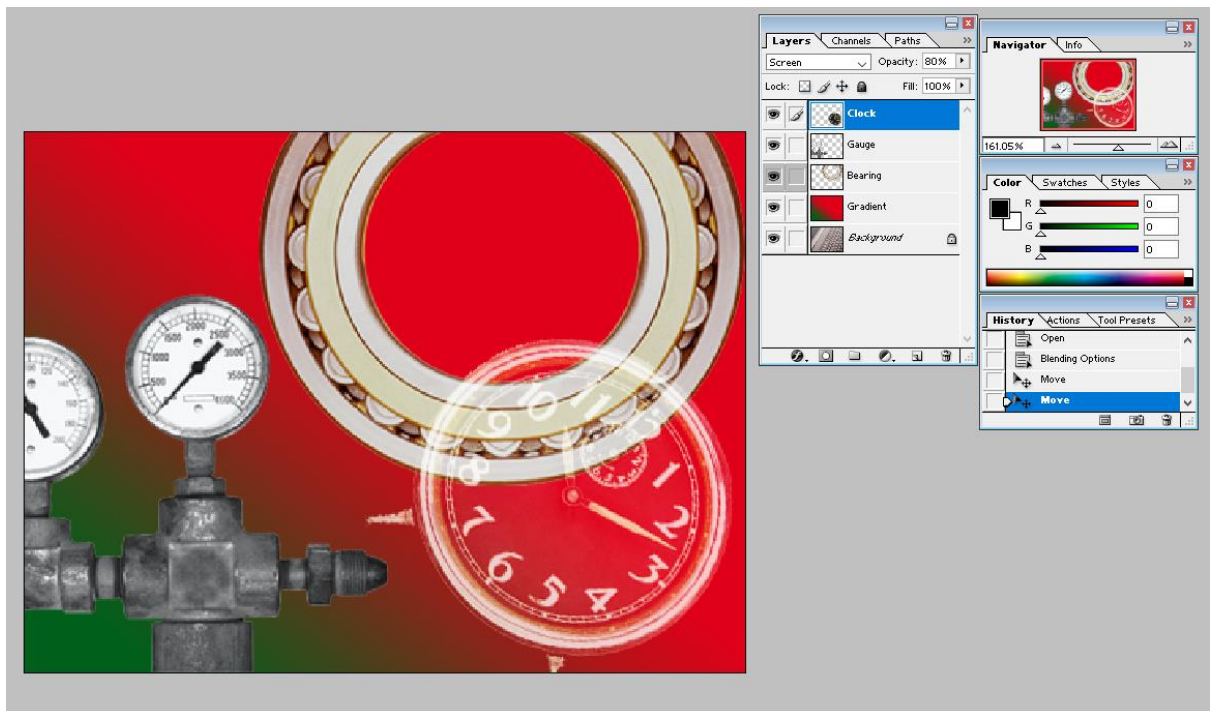

8. **Select (MW), Delete** : Keeping the Clock layer selected, use the Magic Wand tool to select the white background portion of the clock and press DEL key to make its background transparent. Press CTRL+D to deselect

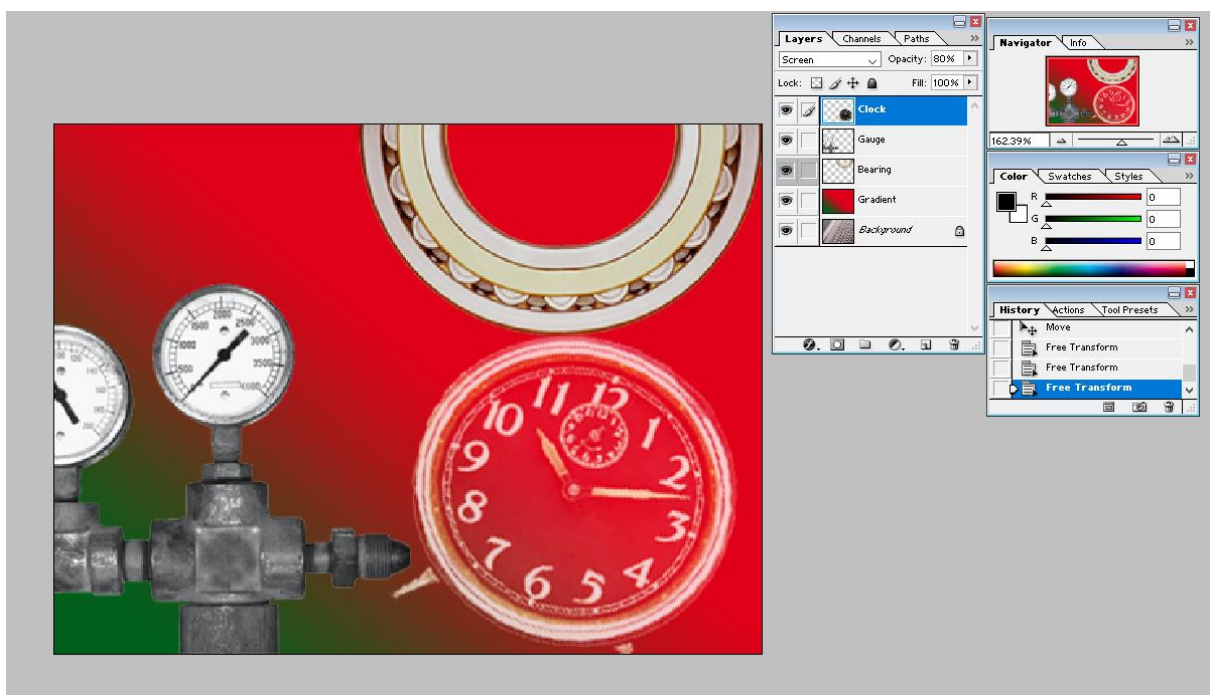

9. **Change blending mode, Change Opacity** : In the Layers palette change the blending mode of the Clock layer to Screen and make its opacity 80%.

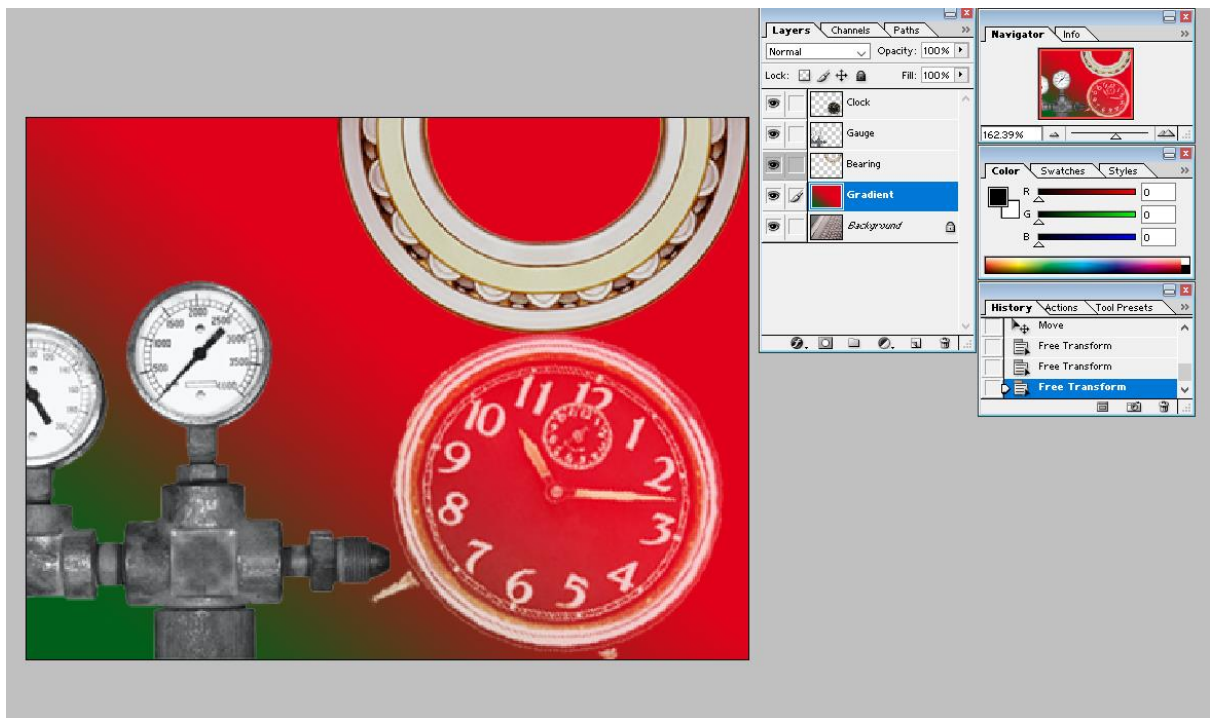

10. **Move** : Reposition the clock and bearing by dragging them to the right of the image using the Move tool

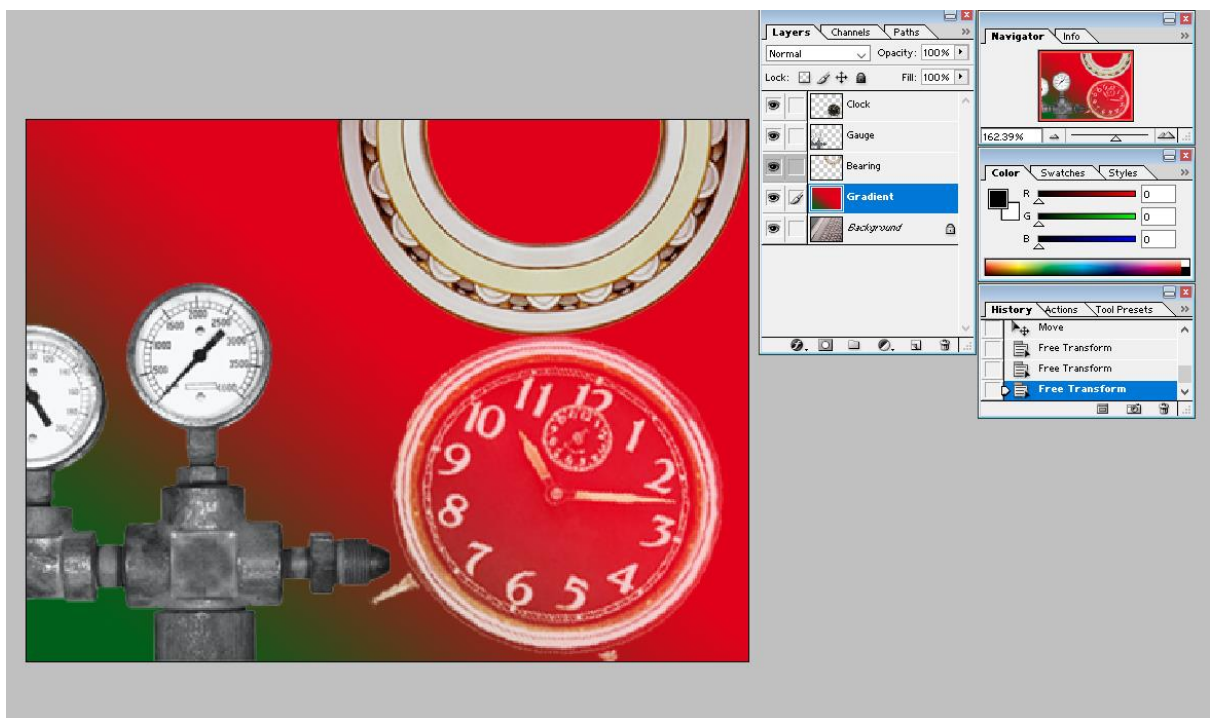

11. **Transform** : Use the Transform function (Edit > Free Transform) to rotate the clock and scale down its size. Press SHIFT while scaling to ensure uniform scaling

12. **Create layer** : Create a new layer just above the Background layer by selecting the background layer and clicking on the Create New Layer button at the bottom of the Layers palette.

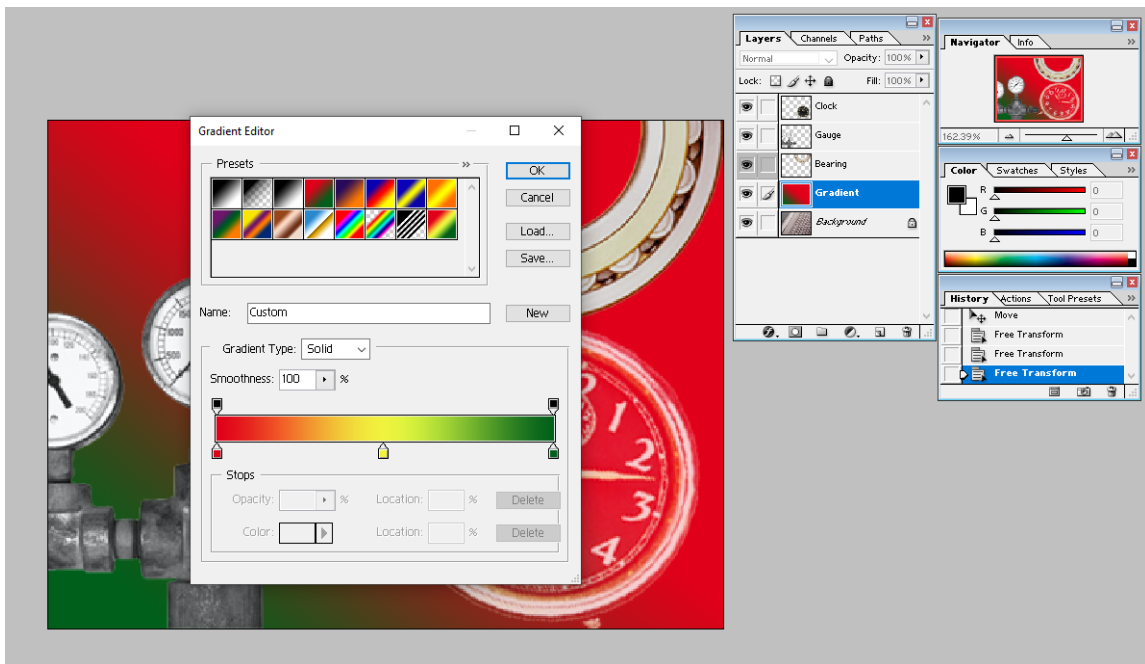

13. **Rename layer** : Rename the new layer to Gradient

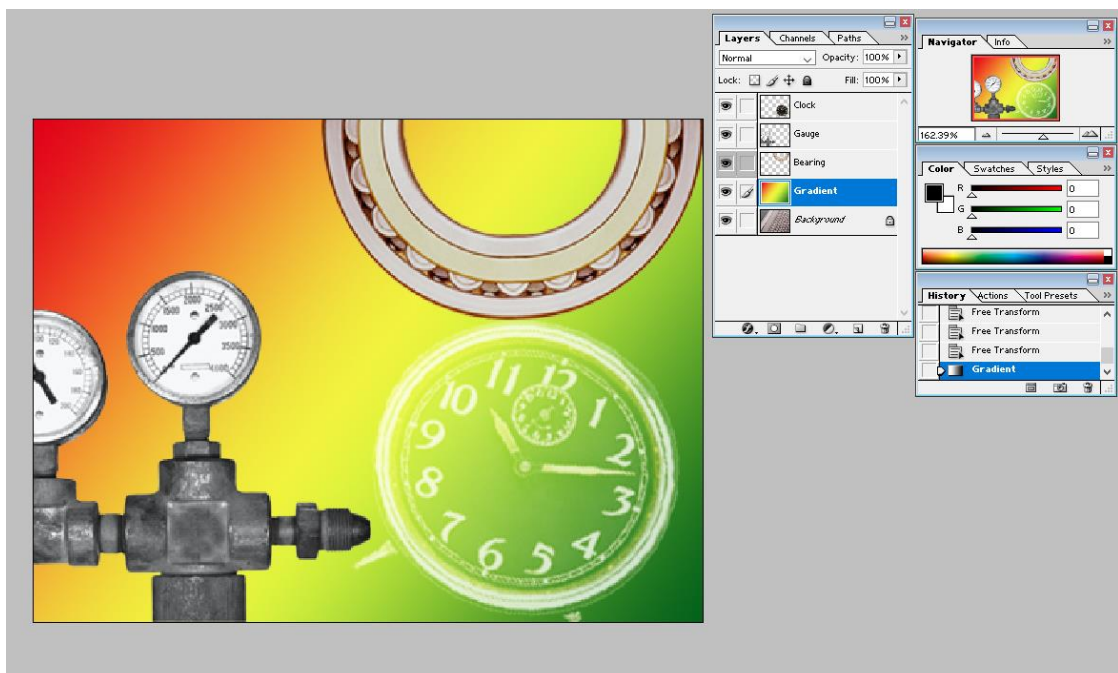

14. Create new gradient : Selecting the Gradient layer open the gradient editor by clicking on the Gradient tool. In the Gradient Editor click to select the red-green preset gradient. Click below the middle of the red-green gradient bar to create a new color stop. From the color panel select a yellow color.

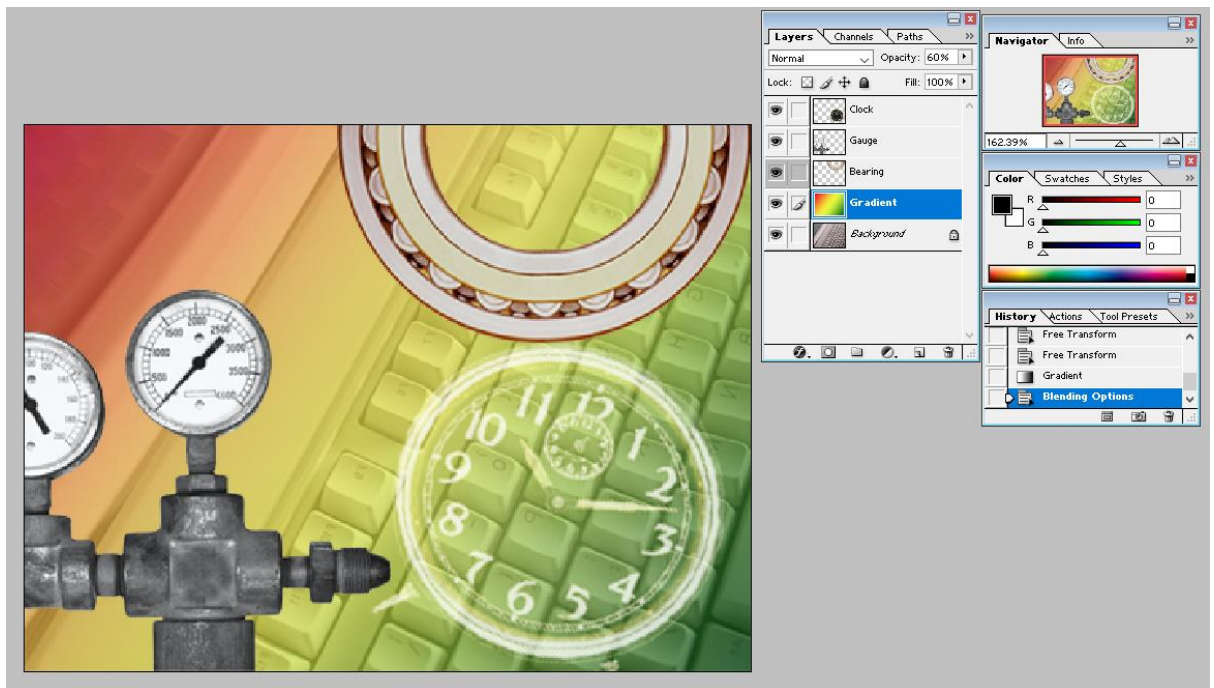

Click on the New button to create a preset copy of the new gradient. Click OK to close the gradient editor

15. Apply gradient : Select the Gradient layer in the Layers palette and using the gradient tool drag from top left corner of the image to the bottom right corner.

16. **Change opacity** : Decrease opacity of gradient layer to 60% so that the keyboard is visible from below

17. **Save file** : Save as TASK3.PSD and TASK3.JPG

Final result image:
